

**REMARKS**

In accordance with the foregoing, allowed claims 18, 19, 21-24, 27-30, and 32-35 have been canceled without prejudice or disclaimer. Claims 5-7 and 31 are pending, with claims 5 and 31 being independent. Applicants reserve the right to pursue the original claims and other claims in this and other applications. No new matter is presented in this Amendment After Allowance Under 37 CFR 1.312.

Claims 5-7, 18, 19, 21-24, and 27-35 have been allowed. However, allowed claims 18, 19, 21-24, 27-30, and 32-35 have been canceled without prejudice or disclaimer in this Amendment After Allowance Under 37 CFR 1.312, leaving allowed claims 5-7 and 31 pending. Since this Amendment After Allowance Under 37 CFR 1.312 only cancels allowed claims, it is submitted that entry of this Amendment After Allowance Under 37 CFR 1.312 is proper under 37 CFR 1.312 and MPEP 714.16 and 714.16(d)(II) (see MPEP page 700-268).

The Office Action of April 1, 2009, the Final Office Action of November 2, 2009, and the Office Action of February 18, 2010, include provisional nonstatutory obviousness-type double patenting rejections based on copending Application Nos. 10/921,256 and 11/435,872. However, the Office has never cited these copending applications on a Notice of References Cited (form PTO-892) as required by MPEP 707, which states as follows on MPEP 700-112:

The list of references cited appears on a separate form,  
Notice of References Cited, PTO-892 (copy in MPEP § 707.05)  
attached to applicant's copies of the action.

Accordingly, it is respectfully requested that the Office provide a PTO-892 listing  
copending Application Nos. 10/921,256 and 11/435,872 with the next Office Communication.

Submitted herewith is an Information Disclosure Statement listing the following  
reference:

International Search Report and Written Opinion of the  
International Searching Authority issued on July 9, 2004, in  
International Application No. PCT/KR2004/000693 (7 pages).

A copy of this reference was submitted with the Information Disclosure Statement of  
October 12, 2004, and is in the image file wrapper of the present application as the 8-page  
document with a Mail Room date of October 12, 2004, a document code of NPL, and a  
document description of NPL Documents. The 8 pages includes the reference itself (7 pages)  
and 1 page entitled "Best Available Images" that was inserted by the USPTO IFW Indexing and  
Scanning Operations. This reference was not listed in the List of References Cited by Applicant  
included in that Information Disclosure Statement. However, it is presumed that this reference  
was considered along with the other references cited in the Information Disclosure Statement of  
October 12, 2004, which was considered in the Office Action of April 1, 2009. Accordingly, this  
reference has been listed in the accompanying Information Disclosure Statement so the Office  
can confirm that this reference has been considered, and so this reference will be listed in the  
"References Cited" section of any patent that may issue from the present application.

Since the accompanying Information Disclosure Statement is being filed to list a reference that presumably has already been considered by the Office, it is submitted that neither a statement under 37 CFR 1.97(e) nor the \$180.00 fee set forth in 37 CFR 1.17(p) is required.

It is respectfully submitted that the application remains in condition for allowance, and a notice to that effect is earnestly solicited. If the Examiner believes, for any reason, that personal communication will expedite prosecution of this application, the Examiner is invited to telephone the undersigned at the number provided below.

Respectfully submitted,

Dated: September 10, 2010
